# Calculations of clip-on panels

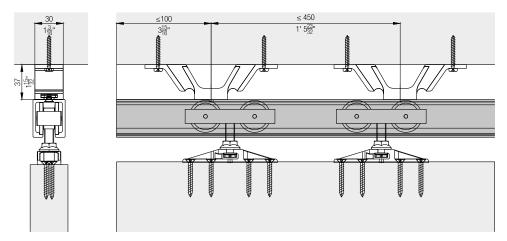

#### **Hawa Confort 120**

The convenient solution to an old problem. Inadequate fastening options in brittle sub-floors or in the area of floor heating. This bottom guide is mounted on the wall.

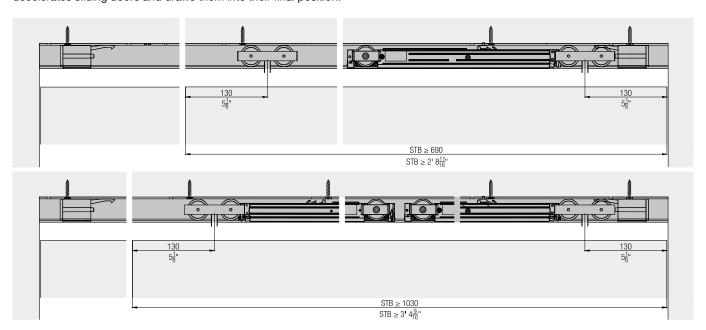

#### **Hawa SoundEx**

Contains the transmission of structure-borne noise from a sliding system to the building.

#### SoftMove 80 soft closing mechanism

Completely integrated into the running track, the SoftMove decelerates sliding doors and draws them into their final position.

#### **Accessories**

- Hawa Junior bottom guides for wall mounting from page 508
- Lock solutions from page 511
- General accessories from page 518

#### Planning/execution
